COASTAL DEFENDER
paint system (PVDF ON ALUMINUM)

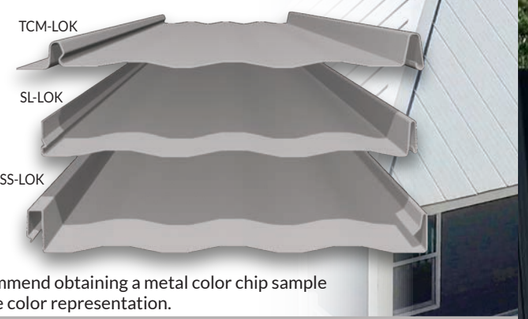

25 YEAR TRANSFERABLE* WARRANTY — COLOR FADE and CHALK: 25 YRS

*"Within the first 10 years."

ABOUT THIS PAINT SYSTEM

Florida's beach waters have a higher salt content than most U.S. beaches. The sea water around Florida can be a challenge for coastal homes. Within 1,500 feet of the coast, most other roofing panels are not covered under warranty. Our aluminum panels, featuring the Coastal Defender paint system, include a 25-year limited warranty and are ideal for coastal applications.

Available on
.032" AND .040" STANDING SEAM PANELS

Color representation may vary. We recommend obtaining a metal color chip sample for the most accurate color representation.

- SR = Solar Reflectance, UV cool roof rating
- E = Emissivity, effectiveness in emitting energy as thermal radiation

5V PANEL COLORS
ALL PAINT SYSTEMS REPRESENTED

From our CORE Defender, SMP formulation, to our Best-In-Class MAX and COASTAL Defender, our 5V line has all paint systems represented.

5V STRIATED

Enjoy the longevity of our CORE Defender paint on all 26 GA 5V material. Or step up the paint and panel thickness to 24 GA and enjoy the benefits of our MAX Defender paint. If you live on the coast or near brackish water, choose our Best-In-Class paint on the 0.032 aluminum panel to ensure long-term protection and beauty.

ABOUT THIS PAINT SYSTEM

Tri County Metals roll forms metal roofing from our CORE Defender paint system. Our CORE Defender paint system offers superior color stability, chalk resistance, fade resistance, and gloss retention.

Weathering performance of our CORE Defender paint system is proven through extensive South Florida testing to be superior to standard silicone modified polyester finishes used throughout the metal construction industry.

Available on
29 AND 26 GA EXPOSED FASTENER PANELS
AND **26 GA STANDING SEAM PANELS**

OUR BEST-IN-CLASS PAINT SYSTEM

Our MAX Defender paint system includes a formulation that continually meets or exceeds the rigorous American Society of Testing and Materials (ASTM) performance criteria while maintaining its color and durability. Sherwin-Williams Fluropon® coil coating systems are field-tested and time-proven to deliver enduring beauty. Each metal paint product in this family provides superior flexibility, formability, and color consistency during the manufacturing process, and is offered in a wide array of colors.
